

Water Pumps

**AC Pump
FL6440**
40 l/min water pump c/w 1" ports.

PICO
F0020204 12 volt
F0020208 24 volt

Suitable for pumping water, diesel and anti freeze

Technical details

- Centrifugal pump with priming device
- Universal motor with double insulated body
- In-built power switch
- Power cables: 3 metres with clamps on 12V and 24 V DC versions
- 4 metre fuel hose
- Plastic manual nozzle
- Bottom filter on suction hose
- 2" G and M 64x4 drum connection
- Flow meter optional.

Dual Piston Demand Pump
DP2100-132 12 volt 8 ltr/m

- Built-in pressure/demand switch
- Maximum fluid temperature of 60°C
- 3/8" NPT female ports
- Ideal for use with ATV mounted sprayers, portable water systems

WATER

Water Pumps

Petrol Engine Water Pump

Power	1.4 HP
Displacement	30.5 cm
Max flow rate/Max head	150 lm /35m
Suction/Delivery/Suction head	1"/25.4mm/7m
Pump type	Centrifugal
Total dry weight	3.7kg

AC Pump

F00203010 **220 volt**

A self priming rotary vane pump.
With an output of 40 ltr/min.
Hose tail connection 3/4" with
on/off switch.

DC Pump

F00204000 **12 volt**
F00204010 **24 volt**

Battery powered pump c/w 2m of cable and
on/off switch.
Max output 40 ltrs/min

Siphon Pumps

GZ 44401 Medium duty
GZ 44402 Heavy duty

Easy to use, polyethylene pumps to siphon liquids. Supplied complete with corrugated discharge hose. For use with water based fluids, detergents, anti-freeze, waxes, soap and some mild acids.

Portable Pump Kit

WP/12

- 12 volt high flow submersible pump 12 ltrs/min
- 3 mtr discharge hose
- 3.75m of cable with battery clips
- Suitable for pumping water and diesel

Bilge Pump

GZ 44501

Hand operated pump, designed to work in any position. Pump can be mounted anywhere: on a wall, wooden base, barrel etc. Used to pump water, diesel, petrol, kerosene, engine oils, synthetic oils, anti freeze and liquids with small bodies in suspension
